Ewyas Lacy

ex parte

Henrici Nevil militis

Domini Bergavenny

1624 – 1626

Preface

This volume is the oldest surviving survey for the moiety of Ewyas Lacy under the jurisdiction of Lord Abergavenny. The information seems to have been gathered at least as early as September of 1624 and last additions penned on the 4th of August, 1626. There are notes in the margins in a later hand, (Mich. 1718) on various tenements and leases. In this edition that hand is italicised and coloured blue. Comparisons with other surveys for this manor indicate that it was not unusual for the larger surveys of this manor to be carried out over a period of two years.

Earlier known surveys for this part of Ewyas Lacy are “Two bookes of record one of the ij^o Elizabeth thother of 29^o Elizabeth”¹.

The typescript in this volume has been prepared over many months using the original survey² and also checked against a handwritten copy of this original³. The copy is undated but may have been executed some time in the late 19th century. The copier had difficulty copying the damaged portions in the original. It has been possible to decipher a little more in places, however it may be that the copier was working from a photograph of the original which would have made it difficult to distinguish words which belonged to pages further on in the volume, but showed through on the top page in the damaged portion. The copy has definitely been invaluable to compile a master text as fragments of the document have broken away between then and today and even if it is the case of one letter this can sometimes be enough to identify the possible rendering of a previously unrecognisable word.

**Speciall observacions and Informacions
in the mannor of Ewias Lacy as
followeth.**

First the sayd mannor is a goodly mannor and extendeth in length 7 myles & in bredthe 4 myles.

It consisteth of pasture, meadowe and common. the land is for the most parte good & fruitefull.

Besides it is generally well wooded, and there are also three brookes or rivers which runne through it. viz. Olchon, Monnowe and Esclie so that it is singularly well watered. There is also lymestone in some partes of the lordshipp which is an excellent helpe for the bettering of their landes which in that partes with with good successe they doe much practise.

Besides there is greate store of slate and paving stone in very greate abundance of such largeness as I never sawe the like in any place. /

There are many goodly commons belonging to the lord Bergevenny for his parte of the sayd mannor which shall hereafter in particuler apeare. /

Touching the customes of the sayd mannor. I am enformed by the relacion of Thomas John Lewys who is a very old man, & hath gathered the rent thereof for a longe tyme that [] they are theise.

[] upon the death of either lord of this

[?manor] there is accustomably due to the

[] such Lords Mises otherwise called

and leaseholder is to pay one halfe yeares rente But every Hailemott tennant goeth free and in consideracion thereof the sayd tennantes so paying doe challenge a freedome from all amerciamentes due & ungathered at the death of the lord and to have white bookes, as they terme them.

Further if both lordes of the sayd mannor doe live for the space of 7 yeares together without death or chainge In such case there falleth to be due to each lord Hornelds which is x^{li} to eache lord for every seaven yeares they shall so live together, to be levyed of the tennantes in manner following viz. the Hailemottes to be free: and every Baron to pay a certainty acording to the old custome and every other tennant freeholder & coppiholder & leaseholder to pay acording to the number of his cattell above two yeare old.

**Barronnyes chardged to this payment

Touching heriottes the old bayliffe sayeth that if any freeholder doe convey his land either upon his heire or in ioynchure to his wieffe in such case there commeth no Heriott to the lord till the death of the wieffe surviving her husband. but upon the death or surrender of very coppiholder there commeth to the lord a heriott.

Also there is no heriott in kinde to be payd for any land where there is not or hath not bene some messuage, but only v^s in money. There is also some question that where the freeholder dyeth not seised of any cattell though there be a messuage upon the lande that in that case also v^s and no more is payable. / sed de hoc quere /

The lord by his officers doe (besides the two greate leetes) keepe a courte at Longtowne for determining of debtes trespasses etc. every 3 weekes which by reason of the greate apearance the multitude of tennantes of all sortes and the manifold contentions used to be commonly among those kinde of people, can not choose but be very beneficiall to the lord of the mannor, in regard there is levyed to the lordes use for every matter once sommoned, whether after compounded, or not vj^d besides amerciamentes for defaltes.

So that this courte with the heriottes (if the lord be well dealt with) must of certainty arise to a good yerely somme.

fol. 95 96v.

The customary land of this manor is most commonly lett for 21 yeares, and in the coppys are expressed the number of acres thereby letten according to the Welshe measure: By which measure according to the conceite of the countrey every welshe acre should conteyne 4 statute acres which they call english acres. But I for my parte upon the survey now taken cannot finde any manner of certainty in their welshe acre for in many of the coppiholdes which I have measured & wherein it is improbable that any wronge should be done to the lord by reason the tennantes of such coppiholdes have no freelandes on any parte adioyning I can not finde their welshe acre unlesse in some very fewe to exceede three englishe acres and many tymes lesse as in theise that followe. viz.

John Watkyn *fol. 39,*

David John Bevan and John William Prichard *fol. 40,*

David Thomas David Prosser *fol. 43,*

Margery Morgan *fol. 44.*

Richard Shawe *fol. 58*

Thomas John Price *fol. 59.* So as in my opinion in all such where there is greate & vehement suspicion of wronge done to the lord by the inter mixture of freeland with coppiland I conceive if my lord []
three statute acres for []
his lordship should not have []
complayne. / []
being a ma[] []
me []

conteyne 4 Stanges, and that he taketh every stange to conteyne three partes of a statute
acre which after that proporcion would be three english acres. /

The coppiholdes I most suspect are theise that followe. viz.

Also in the tennantes of the demeanes one William Powell Thomas land was not shewd nor parte of Mr John Thomas of Lanwonnog which he challengeth to be his freehold *fol. 4* Also Mr John Delahay his land is not fully perfected for the reasons *fol. 8* expressed. /

Touching the estates either leases or coppies such as I could get sight of at their howses or otherwise have noted in the margent of this booke against their names with a note to that purpose: the residue I have entred in the booke according to the notes I receaved from Mr Watkins yet because I have found some contrariety in the same notes, it may be by the mistaking of the clerke I thinke it not amisse that at the next courte of Survey they should be all reviewed. /

Such coppies and leases which I have neyther seene my selfe nor receaved any note of record of from Mr Watkyns, I have entred the names of the persons with a blanke for the estates & term[] till it may be knowen hereafter /.

I have bene enformed that certayne parcelles of land to the value of neere about 3 acres being sometymes parcell of the lordes demeanes called Demesnes y Felin (Demeanes y Vellyne), parte of it lying in a medowe of Anne Parry widowe called Gworlod Fawr (Guorlod Vaure) and parte lying in a close of hers called Pen Gworlod Fawr (Pen Guorlod Vaure) is with holden from the lord by the sayd Anne Parry.

Jane wieffe of Thomas Probert, together with her sister being daughters to Phillipp Lewys Harry who occupyed the sayd Demesnes y Felin (Demeanes y Vellyne) knowe the sayd lande and it is thought that Watkyn Harry Richard doth the like. Thomas John Lewys the old bayliffe beforemencioned was present when prooffe was made to the Jury. Also the sayd George Gryffittes doth knowe the meares & boundes of the same land. /

Besides the suspicion I conceave of John Smithes coppihold *fol.* 49 It apeareth that one welshe acre was reserved by the cobby which doth not apeare how it was otherwise disposed of. The old bayliffe the same acre to be in the handes of David Thomas John Lewys and that Thomas Powell Maddy knoweth of it. /

Nota also the Rent roll maketh mencion of two welshe acres called Y Bryn Glas (Y Bringlase) under the name of Edward Howard esquire which the old bayliffe sayeth hath not bene payd for 4 yeares past. He thinketh that [] William Phillipp Henry Philpott, Lewys Gilbert and others know the same lande.

Two bookes of record one of the ij^o Elizabeth thother of 29^o Elizabeth doe mencion the sayd land: and James Prees Parry at the last Courte of Survey made prooffe to the Jury that it was in Mr Leison Thomas Possession, so that it is hoped they will present it at the next courte acordingly. /

The old bayliffe sayeth he hath receaved no rent of Mr Leison Thomas, neyther for freeland nor coppiland for the space of 3 yeres last past. /
